Subject: RE: PFAS questions at SFIREG JWC
Attachments: Questions for EPA_JWC_FALL2021 090821.docx

Hi Neil,

See attached for my first cut at thoughts – lots of others may need to be present during the session to fully cover the questions (including RD, OPPT, and Jeff), and I've indicated which questions need additional folks involved (and I'm copying Jeff and Cathryn). Thuy and I are both out on the 20th, but Yaorong can likely be available on the technical side. My thoughts on answers to BEAD lab questions are imbedded in the file in red.

Importance: High

Long list of Qs from SFIREG on PFAS. They've gone through the Qs&As online and are asking if we have updates for most of them. The PFAS session during the SFIREG mtg is 9/20, 12:30-1:15.

Subject: PFAS questions at SFIREG JWC
Importance: High

Hi all,

As discussed at the agenda walk-through, SFIREG has shared additional questions (attached) for EPA input during the **PFAS** session (9/20, 12:30-1:15pm) at their upcoming meeting. Please let me know if there is any additional information you need from the group and I'm happy to follow up.

SFIREG plans to send out an updated agenda later this week and would like to add the names of EPA participants to each session – should I include the names of the folks on this email or will others be covering?

Thank you,
Emily
